## Salem Plants Begin To Feel Railroad Strike

Products Piling Up;  
Material Shortages  
Already Being Noted

It's not too serious at the moment, but the pinch is beginning to be felt in local plants from the railroad strike. By the first of the week, if the strike continues, the plants will begin to suffer acutely.

At present one or two of the plants are beginning to pile up products on their shipping docks, as the trucks being used to haul them away fail to keep up with the output. The products are normally transported by rail.

Shortages of materials are being noted in a slight degree notably coke and coal. One plant has a carload of lumber, used for crating, tied up at some unknown point.

The last train to move through Salem was an east-bound freight at 10 a. m. yesterday. The last passenger train was a Cleveland-New York run which rolled through Salem at 6:50 a. m. Wednesday.

The local railroad station is dead. Only Station Agent W. C. Kooman and the section foreman are on duty. Kooman said today that 10 men were laid off in the station proper. Other layoffs involved four section hands, three signal tower men and five shifter crewmen.

"The tracks are getting rusty already," the agent said, "but people still stop and look before they drive across them."

The mail situation in Salem is "under control." Although service has been slowed, all local mail is being moved. Postal authorities here said some of the magazines are arriving late, but other mail is normal.

Akron and Cleveland postoffices are piled up with unmoved mail, it was learned today. Mail is being trucked to East Liverpool, Youngstown, Canton, Akron and Cleveland from Salem.

### Some Violences Occur

CHICAGO, May 12—(AP)—More thousands of railroad workers joined the ranks of the idle today—laid off by the deadlocked firemen's strike against four major carriers.

Workers in many other key industries also were getting layoff notices and others were threatened with forced idleness. The three-day-old strike by 18,000 firemen appeared to have made idle nearly 200,000 workers, already, including some 150,000 rail employees.

There wasn't a sign of peace in the nation's biggest rail strike since May, 1946.

There was, however, the first flareup of violence on some of the strikebound lines.

Shortly after two freight trains were reported ambushed and fired upon near Knoxville, Tenn. The Southern Railway Lines suspended all operations in the area. A spokesman said the move was made to protect the road's employees. An acting fireman on one train was shot in the arm. Pickets outside the Knoxville switch yard denied they fired shots, but said they were stoned.

There were other minor disturbances on the strikebound New York Central lines in two Indiana cities.

WARSAW, Poland, May 12—(AP)—Marshal Konstantin Rokossovsky, former Soviet army commander now in charge of Poland's military forces, has been named to the Polish Communist party Politburo—this country's most powerful political body.

Announcement of Rokossovsky's elevation last night followed forecasts of a shakeup in Communist party leadership.

### CARS COLLIDE

A car driven by Joseph Menecek of R. D. 1, New Brighton, was damaged at 9:05 a. m. today when hit by another operated by Jacob Lenzner of Detroit at the corner of State and Ellsworth. Police said Menecek was waiting at the traffic light when Lenzner made a left turn off Ellsworth and hit his left rear fender.

## Share A-Bomb? No! Solons Say

Congress Shocked  
Idea Is Discussed

WASHINGTON, May 12—(AP)—Talk of sharing the atomic bomb with America's North Atlantic allies brought this hot reaction from Congress: Not a chance!

Among the men who would have to pass a law permitting such a move, there was consternation at the mere knowledge that the subject has been discussed by military officials in a preliminary way, even without approaching decisions or recommendations.

Senators and House members, Democrats and Republicans, cried out against letting any A-bombs get out of American hands.

The lone voice in support of sharing was that of Chairman Vinson (D-Ga.) of the House armed services committee—and he put in an "if." Vinson said: "Our allies should have all equipment necessary to be in a position to undertake a worthwhile defense against any aggressor. If it is necessary for them to have the A-bomb, they should have it."

Of course, a lot of minds could change if we seemed to be getting definitely closer to war. But for the time being there obviously is no possibility that the lawmakers would consent to arming our cold war partners with atomic weapons.

Key members of the congressional atomic, foreign affairs and armed services committees said in interviews that they are against it.

For that matter, some of the military experts in the Pentagon are against it, on grounds A-bombs would be safer in American hands, with less chance for information leaks or for U. S. atomic weapons to fall into Russian hands.

But on the other side is the argument that it might be quicker and cheaper to arm the allies with A-bombs, and planes to carry them, than to equip ground troops, or naval or air forces, with tanks, guns, ordinary bombs and other conventional weapons.

## Mullinares, Chorus Sing Here Tonight

The Memorial Building will benefit entirely from the program at 8 tonight at the High School auditorium, to be given by the Mullinares and the Warren Mullins Mfg. Corp. Chorus.

The Mullinares, composed of 33 office and shop workers of the Salem and Warren plants of the Mullins Mfg. Corp., have received acclaim wherever they have sung. The Warren Women's Chorus is equally prominent as a musical aggregation.

It is hoped that public response will help defray a \$2,700 indebtedness on Memorial Building expenses. Tickets are obtained at the door.

The Mullinares will sing "Stars of The Summer Night," "Those Pals of Ours," "Arabella," "Emulate Spiritum Tuum," "Adoramus Te," "To The Oh Country," "Dry Bones" and "Rigolotto."

In addition to selections by the Mullinares and the chorus, the program will include numbers by a string ensemble, a piano quartet and accordionist and combined selections by both choral groups. Thomas Crothers, Salem High school music director, serves as accompanist for the Mullinares who are directed by Dr. Carl F. Scheig of Warren.

## Death Leap Mystery To Mother Of Victim

PITTSBURGH, May 12—(AP)—A prostrate mother could offer no explanation today why her daughter jumped to her death from the seventh floor of the towering Grant Building in downtown Pittsburgh.

Jeanne Williams, 23-year-old night elevator operator at the William Penn Hotel, turned a deaf ear to pleading cries of "don't do it" yesterday.

For nearly 10 minutes Miss Williams perched on the window sill of a corridor near the seventh-floor elevator stop. Hundreds of persons gathered outside the building. Many shouted at her to change her mind.

At the sound of an approaching police siren, she said: "Some son of a gun called the cops, now I will jump."

And she did, her body smashing the hood of an automobile. She died within a few minutes. Her mother, Mrs. Margaret Williams, could ascribe no reason for the act except to say "Our Jeanne was very nervous."

### Norwegian Motorship Battles Fire At Sea

SAN FRANCISCO, May 12—(AP)—Radio Marine Station KPH today picked up a distress signal from the Norwegian motorship Talisman saying she was battling a bad fire in her engine room.

The 6700-ton vessel expected the U.S. Navy tanker Shawneet and the Japanese freighter Tokatikan Maru alongside to assist her. Both vessels were reported speeding to the Talisman.

The position given would place the ship almost 300 miles due east of Yokohama.

## Brink's Guards Ambushed At Carpet Plant

\$15,000 Payroll Cash  
Taken; 4 Gunmen  
Wear Air Raid Masks

THOMPSONVILLE, Conn., May 12—(UP)—Four gunmen wearing air raid warden gas masks slugged three armed guards of Brink's Inc., early today and escaped with a \$15,000 factory payroll.

The robbery was staged about 100 miles from the scene of the \$1,500,000, holdup of Brink's Boston headquarters, Jan. 17. Boston detectives scoffed at the idea that it might be the same gang's work.

The bandits crept into the factory of the Bigelow-Sanford Carpet Co. before dawn and ambushed the Brink armored car crew when it arrived at 5:05 a. m. with the payroll for 300 night shift workers.

Another Brink's crew was scheduled to arrive later from Springfield, Mass., with some \$150,000 more for supervisory employees and workers on other shifts.

State police established roadblocks throughout northern Connecticut and an alarm was issued for a Massachusetts-registered automobile seen in the vicinity of the factory which is within two miles of the state border.

Police first surrounded the factory in belief the bandits were trapped inside.

John Truhell, Orville Latinville and Joseph Flowers, the Brink's guards, suffered minor head injuries when they were slugged with the revolver bullets.

They were hospitalized at Weston Memorial Hospital in Springfield. Physicians said none was hurt seriously.

Truhell said the four bandits swarmed into a small office after the guards within a few minutes after the Brink's men carried the payroll into the room. The money, contained in individual pay envelopes, was in metal boxes.

Eugene Dennis

## Dennis, U. S. Red, Must Start Jail Term

WASHINGTON, May 12—(AP)—Communist Leader Eugene Dennis today was ordered to jail immediately for contempt of Congress in 1947.

Federal Judge David A. Pine directed that Dennis, secretary general of the American Communist party, start at once to serve a one-year prison sentence.

Dennis had asked the court to delay the commitment until June 22. On that date the court of appeals in New York is scheduled to hear an appeal by Dennis and 10 other Communists convicted on conspiring to advocate the overthrow of the government.

In 1947, Dennis was convicted by a federal court here on charges of contempt growing out of his refusal to testify before the House Un-American Activities Committee.

Dennis appealed the conviction. The Supreme Court upheld it last May 1.

# Plan To Change NLRB Lost; Truman Says He'll Fight On For T-H Repeal

## More Freedom For W. Germany Is Considered

U. S., British Propose  
Relaxing Controls On  
Bonn Government

LONDON, May 12—(AP)—The Western powers today debated unfreezing some of their occupation controls of West Germany.

Easing of restrictions came up for discussion as the Big Three foreign ministers began the second session of their three-day meeting on how to bolster Western defenses against the threat of Russian Communist expansion.

The American and British delegation presented proposals for turning over to the Bonn government more control of West Germany's internal and foreign affairs.

An authoritative source said the proposals did not contemplate formal revision of the present occupation statute, but rather a Big Three agreement not to exercise full statute controls pending formal review of the occupation powers this fall.

Also on the agenda was consideration of France's proposal for merging the French and German industry potential.

The initiative for relaxing some of the German controls came almost entirely from the American and British sides.

## Boss May Get Bonus For Using Older Workers

WASHINGTON, May 12—(AP)—A plan to give employers a government bonus for keeping workers employed beyond the 65-year social security retirement age is gaining favor.

Secretary of Labor Tobin has just endorsed the idea. It was proposed to Congress two months ago by Harvard Economist Sumner Slichter.

The problem is to keep men 65 or over at work when they want to keep their jobs, even though they could retire on government and private pension plans at age 65.

Tobin agrees with Slichter that making these men retire is bad for the individuals and is bad from the standpoint of increasing unemployment and losing worker usefulness. They said that many major employers are adopting a rule of compulsory retirement at 65.

Slichter proposed that employers be given an incentive to keep workers 65 or older at their jobs. He suggested that the employer be given one-third of the retirement pay the worker would have received.

This plan would work like this: Assuming a man was entitled to a \$75 monthly pension from the government, or \$900 a year, his employer would get \$300 a year from the government for keeping the man employed.

Under the plan the individual could still retire at 65 if he desired. The money the government paid the employer would encourage the boss to keep the man working, and also recompense the employer for the reduced productive value of the man.

### OHIOANS VOTE NO

## Flood Plagues Winnipeg Area

Waters Recede In  
Nebraska, Oklahoma

By The Associated Press  
Floodwaters appeared receding today over parts of Nebraska and Oklahoma, where damage was estimated in the millions. The death toll in the two states was 26-22 in Nebraska.

The Red river at Winnipeg was at its highest level—29 feet, eight inches—in more than 100 years. The swollen stream appeared to have halted its climb up the sandbagged dikes guarding the flood-stricken Manitoba metropolis. The threat remained critical for several residential areas.

Some 40,000 residents of the flooded areas of southern Manitoba, the Winnipeg Tribune estimated, had taken refuge in the twin cities. Floodwaters spilled out over one-eighth or more of the 70-square-mile metropolitan area, and 540 square miles of southern Manitoba.

Flooding creeks and rivers in eastern and south central Oklahoma appeared to have reached their crests and receded slightly. Property damage was estimated at more than \$1,000,000.

### Lisbon Road Fatality Brings \$50,000 Suit

LISBON, May 12—A Lisbon road automobile accident on June 11, 1948, in which a hitch-hiking soldier enroute home on furlough was killed, resulted in the filing of a \$50,000 damage action.

The action was brought by Mrs. Elizabeth Bowers, widow and administratrix of the deceased veteran, on behalf of herself and three and one-half year old son against Teofil Andrei of Salem.

Andrei, Salem taxi operator, had picked the soldier up near the Salem city limits while enroute to Lisbon, and Bowers was killed when Andrei's cab overturned on the Route 45 highway three miles south of Salem.

## Senate Action Hailed By GOP As Sign 'Fair Deal' Doomed; President At Butte

WASHINGTON, May 12—(AP)—Senate rejection of a presidential plan to reorganize the National Labor Relations Board was cited by Republicans today as proof that Congress won't go for the Truman "Fair Deal."

By a 53 to 30 margin—with 18 Democrats, chiefly from the South, voting with 35 Republicans—the Senate nullified the NLRB revision that Mr. Truman wanted.

About an hour later it junked by a 65 to 13 count another Truman proposal involving the Comptroller of the Currency.

Senator Wherry of Nebraska, the Republican floor leader, said the labor board showdown "proved that Scott Lucas has only about one-third of the Senate with him when the President wants to put over his 'Fair Deal' program."

Majority Leader Lucas (D-Ill.) led the opposition in the futile effort to save the reorganization plan.

Asked about the combination of Southern Democrats and Republicans, Wherry said "any time a real crisis comes up about the 'Fair Deal,' a coalition will take control to ward it off—but each time it is a different coalition."

The NLRB vote was another victory for Senator Taft (R-Ohio) over President Truman, who wants to repeal the Taft-Hartley labor law.

Taft, in a separate interview, said the vote indicates the Congress "is against most of these 'Fair Deal' measures."

Taft said the union of Republicans and Southern Democrats on this issue would not continue on the controversial Fair Employment Practices Commission bill.

The now dead presidential plan for the NLRB would have abolished the general counsel's job held by Robert N. Denham, giving his powers to the five-member board.

## Contract Talks At Crescent Bog Down

LEETONIA, May 12—Contract negotiations at the Crescent Machine Division of the Rockwell Manufacturing Co. hit a snag here yesterday when the union local rejected management's package insurance plan offer.

Principal point in the contract discussion revolves around the insurance set-up. The company has offered to pay all expenses of the package accident, hospitalization and life insurance plan for company employees, if the workers will assume the costs for their dependents' insurance. Formerly the company and its employees shared the cost of the insurance for both workers and dependents, R. C. DuBrucq, general manager of the plant, said.

The union's demand is in excess of this offer, Mr. DuBrucq said.

The employees are represented by the United Construction Workers of America. Gerald Beltempo is the local president. The union, which has between 155 and 175 members, rejected the insurance package offer May 1, and requested an extension of the present contract to May 15.

A total of 209 people are employed at the plant. Management and the union representatives are expected to meet again Monday in an attempt to reach agreement before the end of the contract extension Tuesday.

BUTTE, Mont., May 12—(AP)—President Truman said today he will not "cease to fight" for the repeal of the Taft-Hartley labor law.

"The Taft-Hartley law hangs over the head of labor, threatening to destroy the gains of 15 years," he said.

"There it will hang until we are able to replace it with a law that is fair to management and labor alike."

The President, in one of a series of major talks on his crusade for the Fair Deal, said in a prepared address: "That is something we must do, not only for the sake of labor, for the sake of the whole country."

"I believe profoundly that the Taft-Hartley act is a substantial infringement of the basic freedom to bargain collectively."

Mr. Truman's address, arranged for the rear platform of his cross-country special train, was one of a series in which he has been trying to whip up sentiment for the Fair Deal.

The President said that the "avowed intention" of the sponsors of the Taft-Hartley law "was to strengthen the hand of management."

"To do this," Mr. Truman said, "they devised a clever law which insidiously undermines the strength of labor unions."

Mr. Truman struck back against critics of his "Fair Deal" program.

"All of you, I am sure," the President said, "have heard many cries about government interference with business and about 'creeping socialism.'"

"I should like to remind the gentlemen who make these complaints that if events had been allowed to continue as they were going prior to March 4, 1933, most of them would have no businesses left for the government or anyone else to interfere with—and almost surely we would have socialism in this country—real socialism."

"The truth is that government action during the last 17 years has been the salvation of private business in the country and has strengthened the private enterprise system against socialism, communism and all other 'isms.'"

"Don't let anyone tell you that the government should retire to the sidelines while national economy goes back to the days of 'boom and bust.' The power of the government exists for the people to use. It would be folly for the people to be afraid to use their collective strength through the government."

Mr. Truman told the Butte audience that the government's most important single economic goal "is to see that there are enough jobs for those who need them."

Good as we've made X-TANE, neither it nor any other regular priced gasoline will completely satisfy a few super sensitive car engines. Today's most advanced high compression cars, and some older cars with engine deposits that increase compression or that have special mechanical problems still require the extra high octane of Sohio Supreme. Let your car's engine tell you which Sohio gasoline you should use. Both are tops in their field! Judge for yourself.

# Will Western Europe Fight?

## Nations In World War II

### Pathway Wouldn't Do Much

(CHAPTER V)  
By KINGSBURY SMITH  
European General Manager,  
International News Service

THE nations which form the historic pathway to conquest of Western Europe from the east

would fail to fight effectively today if Soviet Russia's armed forces suddenly started moving westward.

The will to fight in their own defense does not exist at present among the majority of the people

of France, Holland, Belgium, Western Germany and Austria.

The people of those countries consider the defense position of Western Europe hopeless in the face of the mighty offensive they have been led to believe Russia could mount in the event of war.

Primarily for this reason, the overwhelming majority of Frenchmen, Dutch, Belgians, Western Germans and Austrians believe it would be useless for them to resist a Soviet attack. If the Russians came, the people of Western Europe would

throw up what arms they might have and surrender in the hope of living to be liberated some other day by the Americans.

These are the outstanding conclusions reached as the result of a month-long flying visit to eight European countries in search of an answer to the question: "Will Western Europe Fight?"

They are based on impressions gathered from on and off-the-record talks with government heads, noted statesmen, military leaders and the average man and woman.

Among those with whom this correspondent conferred during the course of the trip were:

Lord Alexander, member of the British Cabinet and until recently His Majesty's Secretary of State for Defense; Lord Vansittart, former Permanent Under Secretary of State for Foreign Affairs and presently a member of the international committee for the study of European questions;

French national defense minister Rene Plevin, General Georges Revers, until recently French army chief of staff; Netherlands defense minister Schokking and General Hans Kruls, Dutch army chief of staff.

Others included West German federal Chancellor Konrad Adenauer; Mayor Ernest Reuter of West Berlin; General Thomas T. Handy, commander in chief of American land, air and sea forces in Europe;

Lieut. Gen. John K. Cannon, commanding general of United States air forces in Europe; Chancellor Leopold Figl of Austria; Lieut. Gen. Geoffrey Keyes, commander of United States forces in Austria; Maj. Gen. T. J. Winterton, commander of British forces in Austria; Count Carlo Sforza, Italian foreign minister, and Yugoslavian leaders.

Nearly all agreed that millions of people in Western Europe are so war weary, so discouraged and so convinced their defense position is hopeless that they would offer little or no resistance if the Russians attacked in the near future.

The workers, housewives, clerks, taxi-cab drivers, waiters and shopkeepers with whom this correspondent discussed the question of the will to resist aggression were even more outspoken than the statesmen and military leaders.

The people are fed up with wars. Some of them fear that to fight would mean bringing down on them all the horrors of destruction by the terrifying weapons of modern warfare. This element thinks that if they acquiesce to occupation, they may escape death and destruction as many of them did in the last war.

# One Sentenced, Three Put On Probation

LISBON, May 12 — One man was sentenced to the state reformatory at Mansfield and three others were given warnings at hearings for violations of probation before Judge Joel H. Sharp Thursday.

station in January of 1948 and was placed on probation March 3, 1948, for a period of five years, was brought into court for failure to pay the court costs and failure to obtain and keep employment which were included in the terms of his probation. Corrie was sentenced by Judge Sharp to not less than one year nor more than 15 years in the reformatory.

HERE is a common ground on which labor and management can surely stand. It is safe and sound. It contains the essence of the capitalistic system. At our sixth Harding College Freedom Forum held on our campus last week, 100 community and industrial leaders gathered to explore avenues of approach toward a better understanding between the various groups in our society. A preacher-conferree offered the suggestion that Christianity—a fundamental belief in God—provides a base on which all segments could stand and work for the common good. The idea of higher wages for increased productivity is a common ground on which one of our most disruptive domestic conflicts could be resolved. This challenge of the Arkansas State Federation of Labor is inspiring.

By **BRUCE BLOSSAT**

No one should have to urge the study of history. The worth of it ought to be obvious. That it isn't is partly the fault of U. S. education, for not insisting on telling the story and telling it humanly. We can also blame our high-paced civilization, which makes current living so absorbing and dazzling that there seems little time for delving deep into our past.

# New Boom

By HAL BOYLE

## People Fear Crowding In By East

THE GREAT PACIFIC Northwest is beaver busy today. It feels it is the Promised Land of the American future. But it is something like a young boy reaching the weed stage, who is growing right out of his clothes.

The area is developing so fast it is finding it difficult to keep up with the demands of its postwar expansion. It is still building like mad.

Almost everywhere you look, you see trees going down and homes going up, as the cities reach out into the woods. And new factories are springing up to serve a mushrooming population. The power supply is already strained in some sections, and dozens of dams are being built, or are in the planning stage, to tap fresh might from the Northwest's roaring mountain streams.

TO A CASUAL observer there appears to be no letup in the post-war boom. But it is curious—unlike other booms in United States history. There is an unmistakable solidity about it.

You get the feeling there are almost as many real estate offices about as there are filling stations. But the land salesmen aren't serving free lunches or hiring jazz bands to lure the customers in, as was customary in Florida during the hectic boom there in the 1920's.

It's a high-priced area and the wages are generally high. I found this out when I got a shoe-shine at the Seattle-Tacoma airport, and the boy said, "two bits, please." That didn't include a

tip either. But they don't tip as much out there as they do in the East.

There are short cuts to keep down the costs. People in the Northwest seem to know how to do more things for themselves than they do in some other sections. At one small party I attended, for example, two of the men were building their own homes. They didn't see anything unusual about it—and they were white collar workers.

EVEN IN PORTLAND, the city of lovely homes, they will tell you—without envy—that Seattle probably will be the real metropolis of the West coast.

"Seattle is sure to pass Los Angeles and may even in time outrank New York City," said one man, who has made a study of the region's resources.

"It has an unlimited water and power supply to draw on—Los Angeles hasn't. And Seattle is the nearest big port to the Far East, a trading area with 800,000,000 people. That's a potential market much bigger than Europe."

Such bright visions don't thrill as many residents here as you might think. The booster attitude isn't particularly strong in the Pacific Northwest.

THOSE WHO LIVE here like it because the recreational facilities of seashore and mountains and forest are unspoiled—and uncrowded. They fear that if millions of other Americans move out here to enjoy the mild climate—

**AWAITS HUSBAND'S RELEASE**—Mrs. Shirley Bender, wife of Marine Master Sgt. Elmer C. Bender of Cincinnati, O., hugs her four-year-old daughter, Cathy, after learning that Chinese Reds have promised to free her husband. Bender and Navy Chief Electrician William C. Smith have been prisoners for 18 months. Mrs. Bender has been staying with her parents in Chicago.

who minds if it drizzles on many, many days?—they themselves will be engulfed. Their attitude is that of a family which settles down to enjoy a fresh picnic site, only to have six other families come whooping up to share it, too.

"The real trouble is so many people are coming out here it's hard to adapt them all to our western way of life," sighed one lady. "They're beginning to swallow us—and we were here first."

But it is doubtful if that will slow the boom in the Pacific Northwest. It has a crowded time a-coming.

## Standing Roast Is An Old Favorite

A RIB-ROAST with pan-roasted potatoes and rich brown gravy is the stuff that makes Sunday dreams come true. And "blood gravy" in a little cup is as much a part of American childhood as baseball and the circus.

Nothing smaller than a 2-rib roast will do. Select one with top government grade or buy by the brand, if you have a favorite packer. Examine the meat as carefully as you would a diamond. It must be flawless.

Look for those nerve-like lines of fat running through the meat. The more marbling the more tender. The meat should be a rich deep red and the surrounding fat both firm and white.

If you inherit money or win on a quiz program, get a first cut. An 8-rib roast is usually divided into "first cut," "second or middle cut" and "third cut." The first three ribs immediately adjoining

the one left on the hindquarters are the "first cut" these are the so-called prime ribs of beef.

The next two ribs are the "second or middle cut." Some butchers prefer them despite the extra fat, explaining that this cut produces a juicier roast.

The remaining three ribs are the "third cut." The price varies according to the cut. However, John Paparty, head butcher and friend of beef eaters at Safeway's Store No. 142, New York City, uses a 7-rib roast. He calls the first five ribs "choice" and the remaining two "blade." The "blade" costs a few cents less a pound.

John trims his standing roast so that it is only 7-inches from tip of rounded end to end of the ribs. "That leaves mostly heart of the meat—only the tender part." He trims off the chine bone (back) and the short ribs before weighing. The result is a short stand-

ing roast that's very easy to carve and has no waste.

Allow about one-half pound of meat per serving. Place it in a shallow pan, fat side up. Do not add water and do not cover. Roast in a pre-heated oven at slow (325 degrees F.) How long? Well, how rare? Cook a six-pound roast 2 1/4 hours for rare; 2 1/2 for medium and 3 1/3 for well-done.

## Budenz Testifies Against Draper

Says Dancer And  
Adler Pro-Communist

HARTFORD, Conn., May 12—(AP)—Louis Budenz, former managing editor of The Communist Daily Worker, says Paul Draper and Larry Adler were known as Communist entertainers, although he personally did not know them to be party members.

Ex-Communist Budenz was the first defense witness yesterday in a \$200,000 libel suit brought by Draper and Adler against Mrs. Hester McCullough, of Greenwich, Conn.

Adler, a harmonica player, and Draper, a dancer, charge that Mrs. McCullough, in accusing them of pro-Communist activities, caused injury to their reputations and heavy loss in entertainment fees.

Budenz, now a Fordham University teacher, told a federal court jury that The Daily Worker made it a policy to highlight news about "persons serving in the interests of the party."

Asked if he gave prominence to the two entertainers in the news columns of The Daily Worker, the witness replied, "Yes, sir, we did."

Budenz first was questioned about Draper's reputation, and answered, "that of a Communist entertainer serving the Communist party."

Testifying on Adler's reputation, Budenz said, "same as Mr. Draper's."

Later, he added, "I did not know them personally as members of the party."

## New Yale Professor Raps Surplus Training

AKRON, May 12—(AP)—A Yale professor says the country is full of "jackass college professors wanting boys to get P.H.D.s for which they have no use."

Dr. Paul B. Sears, recently appointed head of Yale University's conservation department, spoke last night at a water congress.

The congress was organized by the Ohio Forestry Association and the First National Bank of Akron to study the water potential in the state with the view of preventing shortages.

"I'm sore about this situation of wasted young talent, Dr. Sears said. 'I've seen these boys spending their years and energies studying subjects they can never use and then becoming discouraged after they are out of school.'"

He said there were "perfect opportunities" in their own communities for young men to perform constructive services.

## 'Veep' Opens Democrats Campaign

## 'Can't Allow Defense To Lapse' — Barkley

COLUMBUS, May 12—(AP)—Jefferson and Jackson—and call for the election of more Democrats to Congress next November. Concluding his address at the Jackson-Jefferson day dinner he shouted:

"Give us a Democrat Senator from Ohio. Send Joe Ferguson down to Washington."

Touching only casually upon the probable issues of the approaching campaign, Mr. Barkley said "we are trying to reduce government expenses and taxes, but we cannot do it until peace has been established in the world."

He said 72 percent of the national budget is for defense and expressed the belief that the people would not permit a reduction of national defense efforts.

"We can't afford to permit our defenses to lapse," he declared.

He declared that this country had been thrust into world lead-

ership and now is "carrying the torch of liberty for two billion people in the cold war with Russia."

Criticizing the Republicans for adopting the campaign slogan "liberty against socialism" and their charge that the Truman Administration is heading toward a welfare state, Mr. Barkley pointed to numerous progressive and welfare laws which he said the Democrats had established and asked which of them the Republicans would repeal if they were returned to power.

Listing some progressive laws he said the Democrats had enacted since the Civil War, Mr. Barkley led off with the regulation of interstate commerce under Grover Cleveland, the Clayton anti-trust law, farm credits, guarantee of bank deposits, soil conservation, rural electrification and social security.

These he said were "only symbols and samples" of the type of progressive laws enacted by Democratic congresses.

Chiding the Republicans for trying to imitate the Democrats with their recent dollar dinner in Washington, Mr. Barkley said their dinner "was a memorial service for the time 20 years ago when no one could afford more than a dollar dinner."

Pointing out that the purpose of the Jackson-Jefferson dinners was to raise campaign funds, the Vice President said there is only one difference between the Democratic method and the Republican way of raising money:

"We make our contributions on the top of the table, not under it."

President Roosevelt's Board said—

President Truman's Board said—

Still the leaders of the Railroad

Firemen's

Union say—

**"STRIKE!"**

This ridiculous strike is an affront to every citizen of the nation. It's not for more money. It's not because of hours. It's only for soft **feather-bedding** spots for additional unnecessary firemen to go along in diesel locomotives just for the ride. A leading liberal newspaper calls the demands of the union leaders "**horse-feathers**!"

• The reckless leaders of the firemen's union want to force down the throats of the railroads and the public a ridiculous "make-work" proposal which has been twice ruled out by Presidential Fact Finding Boards duly appointed under the provisions of the Railway Labor Act.

This demand of union leaders for additional and unnecessary firemen to ride in diesel locomotives was rejected—after months of hearings—by a Board appointed by President Roosevelt in 1943.

It was again rejected in 1949 by a Board appointed by President Truman.

Recent meetings with the National Mediation Board have brought no change in the attitude of the union dictators.

**Union Leaders Defy Intent of Law**

The union leaders helped write the Railway Labor Act. Yet in an attempt to jam through this scheme of pure

"feather-bedding" by leading the members of their union out on strike and threatening paralysis to large areas of the nation, they are defying the spirit and intent of the very law which they helped to create.

This strike is not for higher wages. It is a strike to force the railroads to employ many more thousands of firemen who are not needed! It would be indefensible waste. The railroads have refused to place this additional and unnecessary burden on the public.

But more important than any other consideration, is the action of these few irresponsible union leaders in seeking to force a crippling strike upon the

**This strike is one of the silliest strikes in history!**

What are these foolish union leaders trying to do? They seek to cause thousands of their members to strike, and throw hundreds of thousands of other employees on and off the railroads out of employment, with loss of pay to them and their families, plus a severe blow to industry and the citizens of the nation.

**What's the strike all about?** If the union has its way—what happens? The present members of the union won't get one cent more pay. They will merely have been assured for a costly and indefensible drive in an attempt to provide more dues-paying members for the union by creating "feather-bedding" jobs for additional and unnecessary firemen. This is certainly one of the silliest strikes in history!

nation for their own selfish purposes.

There is no other possible answer to such a demand but "No!"

The railroads in making such a reply believe they have the whole-hearted support of the people in whose interest they are willing to fight this out, despite the loss and inconvenience that all will suffer.

It is time to put an end to such un-American demands.

### Two Trucks Sideswipe In Route 62 Accident

Two large semi-trucks sideswiped at 4:10 a. m. today on Route 62, two miles west of Damascus.

State patrolmen said the truck driven by George F. Otanic, 32, of Brownsville, Pa., crashed into the tractor-trailer driven by William S. M. Lehman, 23, of Orrville. Otanic was headed west and Lehman was driving towards Damascus. Otanic swung his outfit over the center line and the front of his tractor collided with the left side of Lehman's trailer.

Otanic's truck went off the north side of the highway into a field. Lehman's truck also dropped off the north side of the road. Otanic was arrested for driving left of center.

## Farmers To Check, Visit Congressmen

WASHINGTON, May 12—(AP)—Farm Bureau members from every Congressional district in Ohio are due here May 23 to tell their Senators and Representatives what the farmers want—and don't want—of Congress.

One thing the Bureau says it does not want is the Brannan Farm plan. This would involve subsidies for crops selling below parity prices in an unsupported market.

The Farm Bureau expedition is an annual event. The organization sends a man and a woman delegate from each district to spend two days here visiting various governmental agencies and Congressmen to get and give information.

This year's visit will end May 24 following a luncheon to which all Ohio House and Senate members are invited.

## Stockholder Suing Hanna Coal Company

CLEVELAND, May 12—(AP)—Charging mismanagement, a Brookline, Mass., stockholder is suing the Pittsburgh Consolidation Coal Co., 15 of its stockholders, and the M. A. Hanna Coal Co. of Cleveland.

In a federal court action filed yesterday, Abram J. Berkwitz said Pittsburgh Consolidation had been mismanaged for the benefit and profit of the Hanna Co. and officers of both concerns.

Berkwitz, who said he owns 300 shares of stock in Pittsburgh Consolidation, asked recovery for the company and its stockholders of hundreds of thousands of dollars. He did not specify an exact amount.

The alleged mismanagement involved stock and other transactions, the petition declared. The stockholder said the Hanna

Co. had "working control" of Pittsburgh Consolidation's stock and that through interlocking directorships, three Hanna officers controlled both companies.

## Freed U. S. Pilots Aboard British Ship

HONG KONG, May 12—(AP)—

The captain of the steamer Hunan radioed Butterfield and Swire, British shipping firm here, that two American airmen held more than a year by Chinese Communists were aboard his vessel.

His message was the first confirmation of a Communist radio report that the pair, Marine Master Sgt. Elmer C. Bender of Cincinnati and Navy Chief Electrician William C. Smith of Long Beach, Calif., actually had been freed.

The Hunan presumably still is

in Chinese waters at or near Tsingtao. She is due here Monday or Tuesday.

## Tigers Upset Fenway Hoodoo

Rip Red Sox In Twin  
Bill; Williams Blows

Red Rolfe's Detroit Tigers ripped the sheets off the Fenway Park "bogey man." And they did it without Hal Newhouser.

All Detroit pennant talk has been tempered with the big question: "Can they beat the Sox in Boston?" The answer obviously is "yes."

They did it yesterday—twice. In the first game by a rollicking 13-4 score and later a 5-3 squeaker with the help of damaging errors by Ted Williams and Walt Dropo.

Failure to beat Boston cost the Tigers a shot at the 1949 pennant. In fact, they have won only 14 of 44 games with the Red Sox home and away in the last two seasons.

Fenway was the real jinx. In their home park, the Sox smothered the Tigers nine games out of 11 in both 1948 and 1949. Detroit already has won as many

games there as it did all last season. Joe Dobson just didn't have it and Freddie Hutchinson did in the 13-4 first game. Hutchinson had a three-hit shutout until Ted Williams hit his eighth homer, with the bases loaded, in the eighth inning. All of Ted's home runs have been hit at Fenway.

**THANKS TO** Clyde Vollmer's two-run round-tripper, Ellis Kinder rode into the eighth inning of the second game with a fancy shutout. Then Williams let him down. With the bases full, Williams let Vic Wertz' single skid past him for an error and three runs scored. Dick Kryhoski's homer and an error by Walt Dropo provided two more Detroit runs in the ninth. Dropo's four bagger in the home half was just a futile gesture.

New York took advantage of a double shot at the wobbly St. Louis Browns to win a pair, 5-1 and 6-5. As a result, the Yankees now are second and the Browns nurse a budding six-game losing streak.

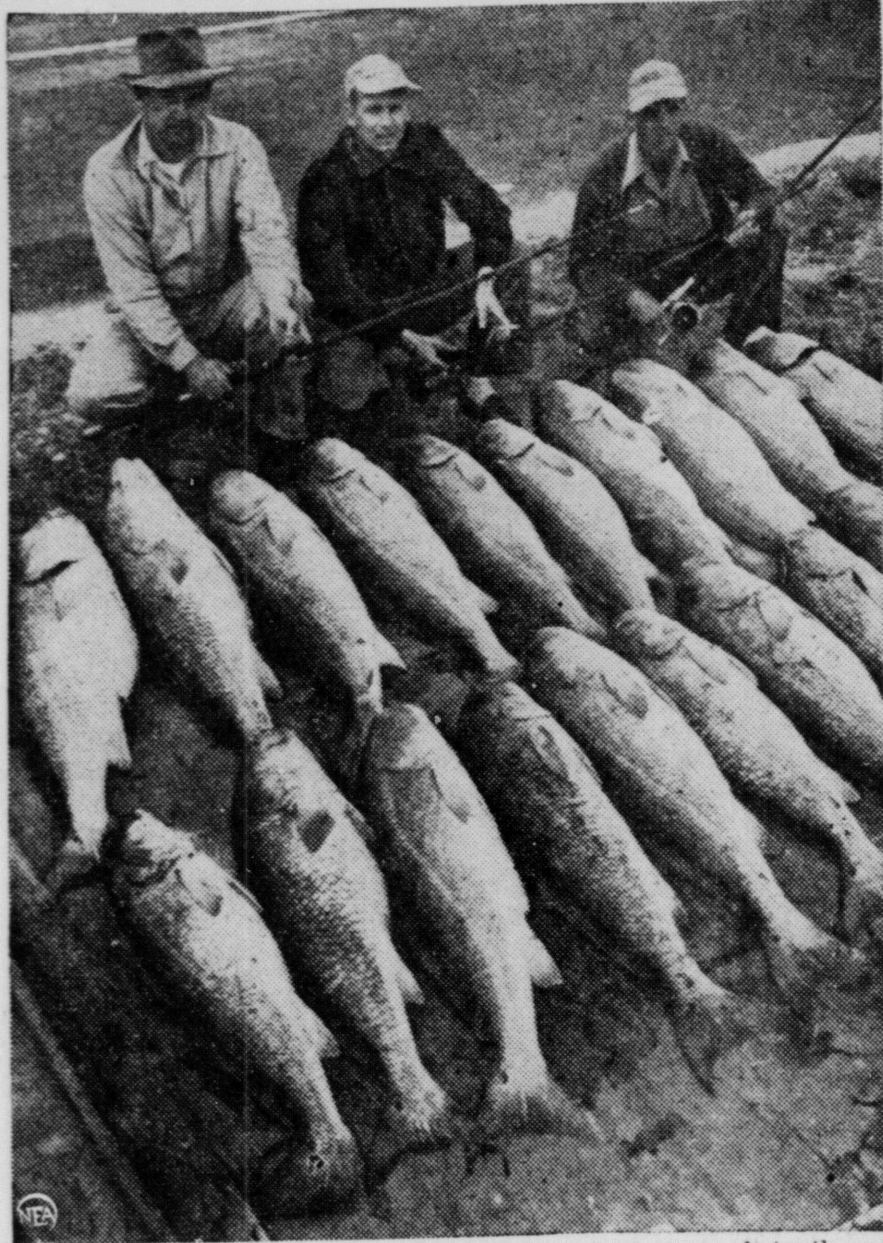

Cliff Mapes lowered the boom on Al Widmar in the opener, hitting a homer with two on that broke a 1-1 tie. It was Widmar's first start of the season.

Washington crowded within a game and a half of Detroit by whipping Chicago, 8-5, their fifth straight win. Bob Ortiz hammered home three runs with a triple, double and single.

Willie Jones helped the Phillies add another half game to their National League lead. Jones, a red hot rival for Ralph Kiner in the home run derby, hit his seventh homer with two men on in the first inning of last night's 3-2 Phil win over Pittsburgh.

Johnny Sain flashed his comeback form against the Cubs with a four-hitter for Boston's 3-0 win. Sloppy defense cost Bill Voiselle the decision in his first meeting with his former mates.

Joe Ruetz, new head football coach at St. Mary's of California, is a doctor of anthropology.

## Tribe Opens Long Campaign At Home; Edge A's In 10th

CLEVELAND, May 12—(AP)—Back home for a 14-game stand, the Cleveland Indians try out the Stadium's new lighting system tonight in their first home night game of the season. The Chicago White Sox provide the opposition.

Early Wynn will work for the Tribe tonight, and Bob Feller tomorrow. The White Sox series will wind up with the first home doubleheader of the campaign Sunday. After a benefit exhibition game with the Pittsburgh Pirates Monday night, the Indians are hosts to four eastern clubs over a 10-day span.

By beating Philadelphia's Athletics 4-3 in 10 innings yesterday, Cleveland took two of the three-game series. It was the only spot in the east where they found such brotherly love. They dropped two of three at Boston, split with the New York Yankees, and lost two at Washington—a record of four victories and six defeats for the entire trip.

From the Cleveland standpoint, the hitting of Manager Lou Boudreau, Joe Gordon, Allie Clark

and Al Rosen was the important aspect of yesterday's contest.

Boudreau had a perfect day at bat—three singles and a double in four trips, and Gordon punched out a double and two singles in five tries. Clark and Rosen each had a homer and a single.

Although the Indians belted southpaw Alex Kellner for 13 hits, the A's outthrew them by one, getting 12 safeties off starter Mike Garcia and two more off Jess Flores who hurled the final 2 1/3 innings and fanned two of the last three batters to face him. Sam Chapman whacked a homer for the A's in the sixth.

Clark's homer, his first hit of the season, scored the Tribe's first run in the fourth. Rosen's four-bagger, his sixth this year, tied the score at 3-3 in the eighth. Singles by Gordon and Boudreau and a grounder by Jim Hegan put across the winning marker in the 10th.

When John Marshall of Yale recently won three events at the AAU indoor swimming championships, he became the second swimmer ever to record that feat.

## Outfielder Is On Suspension

Action Taken By Yanks  
After Happy's Verdict

By WILL GRIMSLEY

NEW YORK, May 12—(AP)—The explosive Dick Wakefield case was shoved back into Commissioner A. B. Chandler's lap today, with the career of the temperamental outfielder in the balance.

The New York Yankees suspended the 29-year-old flycatcher without pay yesterday shortly after they had been ordered to take him back in the deal with the Chicago White Sox that didn't jell.

Wakefield, in Ann Arbor, Mich., said he'd give George Weiss, general manager of the Yankees, "48 hours to talk it over with me as a gentleman."

"If he doesn't do it," he added, "my alternative is an appeal to the commissioner."

It seemed unlikely Weiss would make a dash for the telephone. The Yankee major domo appeared miffed when he called a hurried post-game press conference and announced Wakefield was suspended indefinitely, effective April 29, for failing to report to Chicago.

"He will not play again with the New York Yankees," Weiss declared.

A few hours earlier the commissioner had voided the April 28 deal that was supposed to send Wakefield to the White Sox for a sum of cash and Outfielder Johnny Ostrowski.

**WAKEFIELD WOULDN'T** report to the White Sox unless they restored a \$5,400 pay cut from his 1949 salary at Detroit, giving him \$22,500 for the year. His Yankee contract called for \$17,000.

When the outfielder didn't show up, Chicago General Manager Frank Lane called the whole thing off. Weiss protested, asserting the trade was made through proper channels and "in good faith."

They put it up to Chandler, who held that their verbal understandings were "at variance" and he had no choice but to "have the situation revert to the status that existed."

The commissioner was at his Versailles, Ky., home today and not available immediately for comment.

Under baseball law a suspension can not last more than 30 days.

These are the various possibilities in the unusual case:

1. The commissioner may rule in favor of Wakefield, in which case the Yankees would have to take him back and restore his pay.
2. The commissioner may rule the Yankees acted fully within the baseball law. Thus the suspension would stick.
3. Wakefield may make peace with Weiss and come back home to be farmed out to the minors, probably Kansas City. (Weiss says he'll never play with the Yankees, Wakefield says he'll never play in the minors).
4. After the 30-day suspension period is up, the Yankees may put the outfielder in the ineligible list. He would be out of baseball with no pay.
5. Wakefield may quit.

**THE OUTFIELDER'S** retirement from baseball doesn't seem such a remote possibility. He has insisted he would leave the game before allowing himself to be shunted into the minors.

First, however, he indicated he'll make a fight of it. He insisted the commissioner's ruling yesterday meant he was New

York property and the trade with Chicago was illegal.

"Therefore, he (Weiss) can't suspend me for failing to report," Wakefield said.

Weiss' contention is that when a player signs a contract he agrees to accept whatever assignment is made of that contract.

**Riggs, Kramer Both Enter Pro Tournament**  
CLEVELAND, May 12—(AP)—The manager of the National Professional Tennis championship to be held here June 5 to 11 wrestled today with the problem of whether to seed defending champion Bobby Riggs or 1948 champion Jack Kramer for the No. 1 position.

Riggs and Kramer, who did not defend his title last year, entered the event yesterday. Already in are Frank Kovacs, Welby Van Horn, Joe Whalen, Carl Earn, Johnny Faunce, Jack March, Al Doyle and Vincent Richards.

Before the entries close Monday, Pancho Segura, Frank Parker, Fred Perry, Pancho Gonzales, Don Budge and John Nogrady are "expected" to sign up, tournament manager Robert H. Trenkamp said.

## Derby Favorites May Run Saturday

NEW YORK, May 12—(AP)—

The chances were brighter today that Hill Prince and Your Host, if not Middleground, will start in tomorrow's Withers mile at Belmont Park.

All week there has been speculation, amid conflicting reports, as to whether that "big three" would accept the issue in the \$25,000 added test for three-year-olds.

Trying to pick the probable starters has been just about as tough as attempting to select the winner. With Hill Prince, in particular, it has been a case of no and then yes.

Canny Max Hirsch, who saddled Robert J. Kleberg's Middleground to win the Kentucky Derby last Saturday, has been the most non-committal. He just says he hasn't made up his mind.

Harry Daniels, in whose charge is William Goetz's California flash Your Host—leader most of the

trip in the Derby before finishing ninth—said last night:

**"THERE'S A** good chance we'll run Your Host in the Withers. I'm going to confer with Mr. Goetz about it in the morning. The colt worked five furlongs on Belmont's main track this morning in 1:00 4/5, very handily."

Charles Hayes, who sent out C. T. Chenery's Hill Prince to finish second in the Derby, was well pleased with the Virginia colt's three furlong trial on Belmont's training track yesterday and indicated he might change his mind about the Withers. He had previously planned to await the Preakness at Pimlico a week later.

Rated most likely to go tomorrow are five non-Derby starters: Mrs. Andy Schuttlinger's Ferd, winner of last Monday's Swift stakes and conqueror of Middleground in an early-season sprint at Jamaica; Mrs. W. M. Jeffords' Sullivan and Post Card; Donald P. Ross' Greek Song, and George D. Widener's Lights Up. All except Lights Up are Preakness hopefuls.

Detroit Bowlers  
Change Standings

COLUMBUS, O., May 12 — (AP)—Detroit and Dallas bowlers popped sticks all over the place yesterday at the American Bowling Congress tournament, but it was the Detroiters who made all the changes in the standings.

Joe Paulus and Russ Jantz of Detroit started off by going in to eighth place in the doubles with 1278 made up this way: Paulus — 180-224-207-611, and Jantz—166-257-244-667.

Paulus kept going in his singles for 190-230-245 — 665 and wound up with 1922 for third in all-events. Paulus is a 22-year-old bowling plant proprietor and also is publisher of Modern Bowler.

Burt Price, another Detroit, tossed 244-189-242 in the singles for 675, enough to give him fourth in all-events with a 1902 total. He opened with 622 in the team event and hit for 607 in the doubles.

The hot-shot Texans were Bill Lillard of Dallas whose 212-241-230 put him at 684 and tied for tenth in singles, and Jimmy Vaughn, sensational youngster, who had 253-224-202-679.

21-Year-Old Girl  
Will Wrestle Here

Therese Theiss, 21-year-old St. Paul girl, will wrestle Violet Viann of Kansas City in the feature attraction of Frank Julian's mat card at the Memorial building on Friday, May 19. She is one of the youngest of professional girl wrestlers and is one of the prettiest, too.

Her wrestling instruction came from an old master—Bronko Nagurski, former Minnesota football hero, who later won the world's heavyweight title. She is five feet eight inches tall and tips the scales to 140 pounds. Therese says wrestling captured her fancy years ago. Last year she netted \$7,500 from her grappling endeavors.

Interested also in ice skating, she believes that sport has enabled her to take the falls that come in wrestling, along with developing her speed, agility and wind.

She'll meet a tough customer here in Violet Viann, who is a natural 130-pound athlete. Others on the card will be Fred Bozic vs Ruby Wright and Julian vs Jack Vansky. It will be a seven fall program if it goes the limit.

Fan Steals No. 2 Iron  
From Pro Golf Star

YOUNGSTOWN, O., May 12—(AP)—Patty Berg, the chunky professional golfer from Minneapolis, hopes an overzealous souvenir hunter will return her No. 2 iron by Saturday.

"I'll need my best weapons for the Weatherly tournament in Cleveland Saturday and Sunday," Patty said, "and without that No. 2 iron, my game may suffer."

She found the club missing from her bag yesterday after holding a golf clinic here.

Miss Berg now is third with 332 after 72 holes of play in the transcontinental tournament which moved to Cleveland's Ridgewood course over the weekend.

Louise Suggs of Atlanta is leading with 321 and Babe Zaharias of Chicago is second with 325.

18 Million Ducks,  
Geese Shot In U. S.

WASHINGTON, May 12—(AP)—The Fish and Wildlife Service estimated today that hunters killed 18,500,000 ducks and geese last fall—1,500,000 more than in 1948.

Albert M. Day, director of the service, said liberalized hunting regulations accounted for the increase. The number of hunters in the field in 1949, he said, was 1,676,400, about 10 per cent fewer than in 1948.

"In addition to an increase of 10 days in the length of the shooting season, hunters had greater hunting opportunity last fall because large flocks were concentrated in the steadily diminishing areas still suitable for migratory waterfowl," Day said.

"Also, millions of ducks and geese remained in the United States during the mild fall instead of wintering in Mexico or other southern points, which is their normal procedure."
